## LAWN SMART REJUVENATION PACKAGE\*

### Homeowner Care Instructions

In order to realize the full potential of your Lawn Smart Rejuvenation Package, it is very important that you do the following after receiving this service:

1. Water lawn the day after service is completed
2. Water daily for 2 to 3 weeks until grass seed has sprouted and is growing (do not saturate lawn but give it a good water)
3. Do not mow lawn until 10 days to 2 weeks after service has been completed. If you mow a freshly seeded lawn, not only are you mowing, but you are power vacuuming and sucking up the seed and granular fertilizer.
4. Do not apply weed control to new grass until it has grown to at least 2" inches in height and has been cut at least once.

Please contact your local office if you have any questions on these turf care instructions and we will be happy to answer them for you.

\*Please note that results may vary depending on soil condition and amount of watering provided to lawn after this service is performed.
