

Tree & Shrub Fertilization

Red Deer 587.802.0777 | Calgary 403.456.5800

Maintain & Improve your Tree & Shrub Landscape Investment

Trees and shrubs are a significant investment in a commercial landscape. Utilizing a fertilization program designed specifically for our region, plant species and growing seasons makes sense both financially and environmentally. A commercial landscape that is enhanced by healthy trees and shrubs adds curb appeal and can increase property value from 10 to 20%.

Earth Smart Property Solutions specially blended liquid soil injection feedings are designed to assist in keeping your trees and shrubs healthy, strong and beautiful. The feedings are scheduled in the Spring and Fall and are an essential component for proper plant health. Treatment service is based on a cost per tree or shrub and a site visit charge that ensures simple billing reconciliation for you and your clients.

Spring Tree & Shrub Deep Root Fertilization [mid/late April to early June]

This application provides the plant with the necessary nutrients in the Spring for healthy growth and provides increased resistance to disease and pests.

Fall Tree & Shrub Deep Root Fertilization [early Sept. to mid/late Oct.]

This application will increase the plant's ability to produce and store energy reserves before freeze-up and will assist with winter hardiness.

In addition to the Tree & Shrub Fertilization Program, we also offer the following Commercial Services:

- Weekly and Biweekly Mowing
- Weed Control
- Lawn Fertilization Programs
- Vegetation Control
- Deep Core Aeration
- Turf Insect/Disease Management
- Spring & Fall Clean Ups
- Other services available upon request
- Consultations

Additionally, we are accredited with the Plant Health Care (PHC) code of practice and support the principles to maintain healthy landscapes and to prevent weed, insect and disease problems. To ensure quality control all of our employees receive extensive ongoing training in all aspects of lawn and property maintenance. We strongly focus on health, safety, quality control and positive customer relationships.

Mission Statement

Earth Smart Property Solutions understands our success depends on providing quality service to our customers, employing long term well trained and happy employees and a commitment to the health of our planet. We actively research and promote natural products to assist in the reduced use of pesticides. We strive to create a workplace environment that is challenging, fulfilling and enjoyable for our employees so that they may provide the exemplary service and proven results our clients expect. Our goal is to create a long lasting mutually beneficial relationship with our clients, employees and contractors.
