EARTH SMART PROPERTY SOLUTIONS SERVICES ARE A SMART CHOICE TO ENSURE A HEALTHY LAWN AND YARD AND ARE DESIGNED TO SAVE YOU TIME, SO YOU HAVE MORE TIME TO SPEND DOING THE THINGS YOU ENJOY.

CORE AERATION

Core Aeration removes small plugs of thatch and soil from the lawn, allowing your lawn to breathe. These plugs are then left on your lawn to decompose, with the holes filling in within a few weeks, depending on time of year, weather and soil conditions.

Core Aeration is recommended once per year, in the spring or fall.

Benefits of Core Aeration:

- * Improves air exchange
- * Enhances uptake of water and fertilizer by the soil
- * Reduces water run-off and puddling
- * Creates stronger turf grass roots
- * Reduces soil compaction
- * Increases tolerance to stress brought on by heat and drought
- * Enhances thatch breakdown

We also offer the following services to ensure your lawn and trees look healthy and lush: Fertilizer and Weed Control; Vegetation Control; Tree and Shrub Deep Root Fertilization; Spring and Fall Clean Ups; Mowing; Soil Drench – Insect/Disease Management; and more.

Please contact your local office to confirm that this service is available in your area and for a quote based on your property's square footage.
